

## HUBBA WAVE

### ON BOARD CONNECTIVITY ON MONTHLY CONTRACT WITH MINIMAL CAPITAL OUTLAY

The Hubba Wave is a data and Wi-Fi router device that provides boat owners with a range of benefits for a simple monthly charge. The Hubba Wave facilitates fast 4G connectivity for coastal cruising up to 15 miles offshore at a fraction of the cost of VSAT.

The device is ideal for inland waterway use as well. The Hubba Wave can be accessed by laptop, tablet or smartphone and is loaded with 40 GB of data per month and unlimited phone minutes. The Hubba Wave is supplied on a 24-month contract for a one-off cost of £39.95 plus VAT and a monthly charge of £39.95 plus VAT.

Boat owners who have membership of Netflix, Apple Music, TV Player and other popular Apps will also benefit from watching movies and TV without using any of the 40GB monthly data allowance.

Netflix

TV Player

Snapchat

Soundcloud

Deezer

Apple  
Music

The Hubba Wave will accept all wi-fi connected devices on-board and has the additional benefit of a plug-in telephone handset, that can be used as a fixed boat 'phone with unlimited minutes\*. This phone usually has better connectivity than a mobile phone due to the antenna on the Hubba Wave, so can be used further offshore. The cost covers the router box, aerial, all cables, the handset and 40GB of data per month\*.

Boaters crossing the channel to EU countries will be able to roam without penalty\*\*, as is now standard with mobile providers.

\* To 01, 02, 03 and standard mobile numbers

\*\* This may change in the future depending upon the EU regulations in force at the time

Providing you have some of your monthly data left in your allowance, you can access all these apps at no extra cost, and without using up that data.

\*installation cost not included. A one off upfront payment of £39.95 will be required. After initial 24 month period – price per month reduces to £29.95
